ADMIN RECORD

Ms. Susan Chaki  
Hazardous Waste Cleanups Unit Leader  
Colorado Department of Health  
4300 Cherry Creek Drive South  
Denver, Colorado 80222-1530

Dear Mr. Rehder, Mr Schieffelin, Ms Chaki

Enclosed for your review and approval is the Final Proposed Action Memorandum (PAM) for the Remediation of Individual Hazardous Substance Site (IHSS) 109, Ryan's Pit. The document has been revised from the previous version to include responses received during the public comment period. The treated soils are currently stored in ten, 20 cubic yard rolloff containers. This soil will not be returned to the former trench site until written approval of the PAM by both the EPA and CDPHE is received and the Cleanup Agreement Action Level Working Group has agreed upon site specific subsurface soil concentration standards for radionuclides. In the event that the established site specific concentration standards are set below the measured values in the rolloffs, DOE will evaluate disposing of the soils at an alternate location

DOE requests approval of the PAM within 10 days of the receipt of this letter. Any specific questions relative to the referenced document should be directed to Dave George, the DOE Environmental Restoration Progress Assessment Team Leader at 966-5669

Sincerely,

*Ronni Babo*  
for Bob April, Lead  
Stakeholder and Environmental Liaison Group
