Mr. Gary Baughman
Hazardous Waste Facilities Unit Leader
Colorado Department of Health
4210 East 11th Avenue

Gentlemen:

Please find enclosed two copies each of the revised Final RFI/RI Work Plan for Operable Unit (OU) No. 3, and a separately bound Response to Comments that addresses Environmental Protection Agency (EPA) and Colorado Department of Health (CDH) comments transmitted in the January 15, 1992, EPA letter to the U. S. Department of Energy, Rocky Flats Office (DOE RFO). This transmittal meets your January 15, 1992, letter request for revisions by February 28, 1992.

The revised document also reflects the January 31, 1992, letter from DOE RFO to EPA, and the letter from EPA to DOE RFO, in addition to discussions among the responsible project managers and the January 24, 1992, meeting at EPA. A Technical Memorandum on the OU-3 Air Program is currently being developed based on objectives outlined at the November 1, 1991, meeting with EPA and CDH. The specific Air Program will be presented to EPA and CDH prior to initiating any field work.

The DOE RFO and EG&G believe that this revised Final RFI/RI Work Plan for Operable Unit No. 3 is an excellent document and will serve the public interest in the most cost effective way possible. DOE RFO understands that EPA and CDH have agreed to complete their review by March 13, 1992.

Questions should be directed to Robert H. Birk of my staff at 966-5921.

Sincerely,

David P. Simonson
Assistant Manager
for Environmental Management
