Gentlemen:

The U.S. Department of Energy (DOE), Rocky Flats Field Office has not received comments from your agencies on Operable Unit No. 3 Technical Memorandum 4 (TM 4), Contaminants of Concern, and the accompanying Colorado Department of Public Health and Environment Conservative Screen Letter Report, which were delivered to you on September 21, 1994, 24 days ahead of schedule. Your comments were expected by October 11, 1994. Similarly, TM 5, Toxicity Assessment, was delivered to you on October 11, 1994, 30 days ahead of schedule, and DOE expected comments by November 2, 1994.

Since DOE received no comments, we must assume you approve the above cited documents consistent with Section VII.D.1.A of the IAG. Therefore, DOE will continue to implement the current schedule that calls for DOE to achieve the October 30, 1995, Interagency Agreement (IAG) milestone date for submitting the Draft RCRA Facilities Investigation/Remedial Investigation Report. DOE anticipates receiving your approval letter shortly.

If you have any questions, please call Robert H. Birk at 966-5921.

Sincerely,

Steven W. Slaten
IAG Project Coordinator
Environmental Restoration
