OPERABLE UNIT 3 FINAL RESOURCE CONSERVATION AND RECOVERY ACT (RCRA) FACILITY INVESTIGATION/REMEDIAL INVESTIGATION (RFI/RI) REPORT - AMT-017-96

July 8, 1996

96-RM-ER-0114-KH

Discussion and/or Comments:

Enclosed are six copies of the Operable Unit 3 Final RFI/RI Report. This 3 volume report represents the culmination of our efforts to characterize the nature and extent of contamination in the offsite areas, as well as to characterize and communicate the risk to human health and the environment represented by this contamination. The results reported in this document have been reviewed by the DOE and the agencies, and it is expected that this report will subsequently gain final regulatory approval.

The recommended distribution for this report is three copies for the EPA, two copies for the CDPHE, five copies for DOE, one copy for Kaiser-Hill, five copies for the public reading rooms, and two copies for the Administrative Record. The distribution will be completed as copies become available from the reproduction center. Remaining copies will be held for internal and stakeholder distribution.

If you have any questions, please contact Mark Buddy at 966-2148.
