INTEROFFICE CORRESPONDENCE

DATE March 20, 1992
 TO Distribution
 FROM D.R.Ferrier, Waste Operations, Bldg. 750, X6456
 SUBJECT TECHNICAL CRITERIA FOR FRESHLY CAST PONDSLUDGE WASTE
 WBS 431 SP/DRF-06I-92

Attached are new design considerations for the pondsludge process train received from Halliburton. This should be of use to you as you review various and sundry design criteria and revisions to internal procedures to process pondsludge.

If you take extreme umbrage with any of the data provided, please respond to me with the issue and where appropriate, provide references.
