T: Transfer of Water from Pond B-2 to Pond A-2

O: J. M. Kersh, Associate General Manager  
Environmental Restoration and Waste Management  
EG&G Rocky Flats, Inc.

We are in receipt of your latest memorandum (90-RF-7580; attached) describing a procedure for transfer of water from Pond A-2, which has been found to contain low levels (less than ten parts per billion) of trichloroethylene (TCE). We have discussed the particulars of this transfer with staff from the U.S. Environmental Protection Agency and with the Colorado Department of Health to assure that the transfer takes place in accordance with the requirements of the Clean Water Act, the Comprehensive Environmental Response, Compensation and Liability Act and the Resource Conservation and Recovery Act. We have also discussed this transfer internally regarding compliance with the Clean Air Act.

This is to advise you that, per our staff's discussions on this matter, the transfer appears to be in conformance with the requirements of the aforementioned statutes. The procedure outlined in your memorandum also appears to be consistent with our previous guidance regarding monitoring and oversight of the transfer as it proceeds. You are therefore authorized to begin this transfer as you deem appropriate.

If there are any questions, or if you require more information, please feel free to contact me or have your staff contact Tom Lukow of my staff at extension 4561.

*Thomas E. Simonson*  
for  
David P. Simonson, Assistant Manager  
for Environmental Management
