91-DOE-10390

Dear Mr. Love:

In an effort to seek coordination with the natural resource trustees as required by CERCLA Section 104 (b) (2), the U.S. Department of Energy (DOE) Rocky Flats Office is transmitting one (1) copy of the "Final Phase I RFI/RI Work Plan, Original Process Waste Line (Operable Unit 9), Rocky Flats Plant," dated November 1991. Note that this document is comprised of two (2) volumes.

This document is a requirement of the Interagency Agreement (IAG) signed by DOE, U.S. Environmental Protection Agency and the State of Colorado. Note that this document is a final work plan and as discussed at the natural resource trustee meeting held on November 13, 1991, the work plan itself will not be modified per your comments. However, DOE will consider your comments and additions will be made to the actual work as appropriate.

If there are any questions or concerns regarding this letter or the enclosed document, please contact Bruce Thatcher of my staff at 966-3532.

Sincerely,

David P. Simonson
Assistant Manager
for Environmental Management
