REDUCTION IN SCOPE OF ENVIRONMENTAL EVALUATION TASKS - JMK-0211-92

The attached issue paper presents a proposal for a reduction in scope of environmental evaluation tasks being performed on operable units at Rocky Flats Plant.

Descoping of environmental evaluation work efforts is presented as a mechanism for improving cost and schedule performance relative to CERCLA/VIAG milestones, while simultaneously meeting biological regulatory liability requirements in an effective manner.

If you concur with this approach, we would recommend scheduling a meeting between representatives of DOE and EG&G in the immediate future to discuss the details of this proposal.

If there are any questions or concerns, please contact Erich Evered on X4934, or Steve Nesta on 273-6076.
