Colorado Department of Health
4210 East 11th Avenue

Dear Dr. Dowsett:

In a telephone conversation with Jim Kiefer of my staff on June 7, 1991, Dave Maxwell of your staff stated that there appeared to be some errors in the monthly reports of pondcrete operations. After checking the reports, we confirmed that there were errors in those reports. The purpose of this letter is to correct the errors and also provide you with data that were inadvertently omitted from previous reports. The corrected data are provided in the enclosure to this letter.

If you have any questions, please contact Joe Wienand of my staff at 966-5924.

- Incorrect data were previously reported for these dates.
- ** Data were inadvertently omitted from previous reports for these dates.
- *** The report for pondcrete operations for November 27, 1990 through December 16, 1990 reported data for the 750 Pad puddle. However, all of that data was actually data for the 904 Pad puddle. In addition, the cadmium data was inadvertently omitted from the report and is reported here.
