RE: Groundwater sampling at OU 11

Dear Mr. Slaten:

The Colorado Department of Public Health and Environment, Hazardous Materials and Waste Management Division (the Division) and the Environmental Protection Agency (EPA) have reviewed the Department of Energy's request to delete quarterly groundwater sampling from the OU 11 Scope of Work. Because four sampling events have been completed, satisfying the FSP, and because the RFI/RI Report has been submitted, this request is approved. It is understood that following the closure of OU 11, the 15 groundwater monitoring wells developed during the RFI/RI will be turned over to the Sitewide Monitoring Program. This group will then determine if and when these wells will continue to be sampled.

If you have any questions regarding these matters, please contact Carl Spreng at 692-3358.

Sincerely,

Joe Schieffelin
