Follow-up on Concurrence for Polychlorinated Biphenyl Sampling in Individual Hazardous Substance

Suzanne Berman-Smith, Operable Unit No. 12 Manager
Environmental Restoration Management
EG&G, Inc.

It is my position that the attached May 27, 1994 and July 11, 1994 requests to add PCB's to the analyte list for samples in the RCRA Facility Investigation/Remedial Investigation for Industrial Hazardous Substance Site 116.1 are justified. Based on our conversations, verbal approval to add these analytes was given by Steve Slaten on May 26, 1994, thus this activity has been completed.

This memorandum serves a written approval for the original May 27, 1994 request to add PCBs to the analyte list for IHSS 116.1. If there are any question, please contact me at extension 7252.

Regina R. Sarter
Industrial Area Operable Unit Manager
Environmental Restoration
Major System Acquisition
