Subject: Request for Mailing List Status – December 12, 2007, Hearing on Proposed Revisions to Regulations Number 31 and Number 41

Dear Mr. Frohardt:

This correspondence is to request mailing list status for this rulemaking. Rocky Flats is owned by the United States and portions of the Rocky Flats property are under the jurisdiction and control of DOE.

Rocky Flats was listed on the Comprehensive Environmental Response, Compensation, and Liability Act National Priorities List in 1989. The final remedy was selected in the September 29, 2006, Corrective Action Decision/Record of Decision after completion of cleanup and closure by DOE under the *Rocky Flats Cleanup Agreement*. The final remedy is being implemented in accordance with the *Rocky Flats Legacy Management Agreement*.

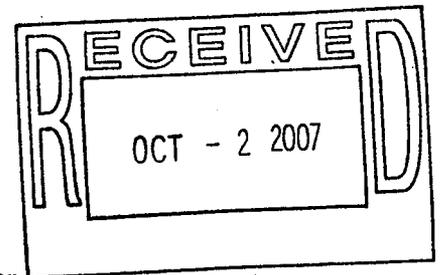

One remedial action objective of the remedy is to meet maximum contaminant levels (MCLs) in ground water. Among other things, the proposed revisions to regulation #41 include a new ground water standard based on an MCL for uranium and a change to the arsenic MCL. Thus, DOE has an active interest in the rulemaking and intends to participate and may choose to provide testimony.
