Subject: 2007 Annual Report

Dear Ms. Michael:

Enclosed is a copy of the four annual reports that were delivered to Steve Berendzen, U.S. Fish and Wildlife Service (USFWS), at the Rocky Mountain Arsenal on November 19, 2007. The reports contain summaries and photographs of monitoring that the U.S. Department of Energy (DOE) was required to conduct for different projects, according to four different documents that DOE has from USFWS. It has come to our attention that you did not receive a copy of the report and delivery letter in which DOE requested concurrence from USFWS that certain monitoring could be stopped because success criteria had been met. The specific requests for concurrence are outlined in the original delivery letter, attached. DOE requests concurrence from USFWS that we have met the success criteria at the specified locations and that monitoring is no longer required. If you desire, a field tour can be arranged for you to visit each of these locations at your convenience.

If you have questions, please feel free to contact me or Jody Nelson at (720) 377-9677.

Sincerely,

Scott R. Surovchak
LM Site Manager
