SUBJECT: Offsite Well Abandonment at the Former Rocky Flats Plant

Dear Mr. Happe:

This correspondence is in reference to one existing monitoring well that was installed in the 1990s off of the former Rocky Flats Plant property. The well is located adjacent to the eastern side of Stanley Lake as illustrated in the attached map. The well is not useful to the Rocky Flats Site and is scheduled to be abandoned in accordance with regulations set forth by the State of Colorado. The abandonment of said well will commence unless written objection from the City of Westminster is received by the U.S. Department of Energy Office of Legacy Management within 30 days of the date of this letter.

If you have any questions or require additional information regarding this correspondence, please call me at (720) 377-9682.

Sincerely,

Scott R. Surovchak
LM Site Manager
