

From: [DOE Office of Legacy Management](#)
Subject: DOE has posted a new contact record to the Rocky Flats Legacy Management website
Date: Monday, December 29, 2014 9:28:24 AM

The U.S. Department of Energy has posted Rocky Flats Legacy Management Agreement (RFLMA) contact record [RFLMA CR 2014-10](#), "Reportable condition for uranium 12-month rolling average at Point of Compliance WALPOC", to the Rocky Flats DOE Legacy Management website.

This contact record documents the consultation between the RFLMA Parties to address a reportable condition at surface water Point of Compliance (POC) WALPOC at the Rocky Flats Site, Colorado for the period from November 1, 2013, through October 31, 2014.

Contact records may be accessed at http://www.lm.doe.gov/Rocky_Flats/ContactRecords.aspx or by going to the Community Involvement page at http://www.lm.doe.gov/Rocky_Flats/Sites.aspx?view=5.

If you have any difficulty accessing this contact record, or have any other questions, please contact:
