RE: Contact Record 2015-03

Dear Mr. Surovchak,

The Colorado Department of Public Health and Environment (CDPHE), in coordination with Region 8 of the Environmental Protection Agency, has reviewed draft Contact Record 2015-03. This contact record reviews conditions that have compromised the cover in the vicinity of the East Perimeter Channel of the Original Landfill. It also reports and proposes actions that are intended to remove sufficient surface water and groundwater so that repairs can begin and longer term plans can be developed and proposed.

Site visits and consultation with the US Department of Energy and its consultants have confirmed the condition of the landfill cover and the need for immediate action. Contact Record 2015-03 is therefore approved. Because of the quick response required by these proposed actions, the 10-day waiting period normally required following the posting of a contact record is waived, as provided for in RFLMA Attachment 2.

Please let me know if you have any questions regarding this approval.

Sincerely,

Carl Spreng
