

From: [DOE Office of Legacy Management](#)
Subject: DOE has posted contact record RFLMA CR 2015-06, Original Landfill (OLF) Implementation of Interim Action to Reestablish Surface Water Management on Portions of the OLF, with Soil Disturbance Review Plan, to the Rocky Flats Legacy Management website
Date: Wednesday, July 29, 2015 4:28:59 PM

The U.S. Department of Energy Office of Legacy Management has posted Rocky Flats Legacy Management Agreement (RFLMA) contract record [RFLMA CR 2015-06](#), *Original Landfill (OLF) Implementation of Interim Action to Reestablish Surface Water Management on Portions of the OLF, with Soil Disturbance Review Plan*, to the Rocky Flats Legacy Management website at http://www.lm.doe.gov/Rocky_Flats/ContactRecords.aspx.

[RFLMA CR 2015-06](#) documents the consultation between the RFLMA Parties regarding the evaluation of several recommendations from a qualified geotechnical engineer to reestablish surface water flow off the OLF cover over the short term. The contact record also contains the approved Soil Disturbance Review Plan authorizing DOE to conduct the recommend actions.

DOE will not begin any soil disturbance work until 10 calendar days after this Contact Record is posted on the Rocky Flats Site's website and stakeholders are notified of the posting in accordance with the RFLMA Public Involvement Plan.

If you have any difficulty accessing this contact record or have any other questions, please contact:
