RESPONSES TO THE COLORADO DEPARTMENT OF HEALTH COMMENTS DATED
MARCH 12, 1991 REGARDING THE REMEDIAL ACTION TEMPORARY DECONTAMINATION
PAD - JEE-0035-91

Pursuant to the Colorado Department of Health (CDH) comments dated March 12, 1991 regarding the Remedial Action Temporary Decontamination Pad (RATDP), please find the enclosed responses (see Enclosures 1-5). The responses to the RATDP comments were developed relative to 6 CCR 1007-3 Part 262 and Part 265 Subpart J, Interim Status Standards for Tank Systems.

The CDH Hazardous Materials and Waste Management Division is correct in assuming that storage of potentially hazardous waste in the two sedimentation and four holding tanks will not exceed 90 days. All potentially hazardous materials will be removed from the decontamination facility in accordance with the Resource Conservation and Recovery Act (RCRA) 90-day storage criteria.

DOE RFO does not consider this decontamination pad facility to be "temporary," since it will be utilized on an indefinite basis. Therefore, the decontamination facility will be referenced as the "Remedial Action Decontamination Pad" (RADP).

If you have any questions or comments regarding the responses, please contact Randy Ogg (at extension 7079) or Linda Rock (at extension 5964) of the Remediation Programs Division.
