CONFIRMATION OF EXTENSION TO LABEL INVESTIGATIVE DERIVED MATERIAL (IDM) AS HAZARDOUS WASTE - RLB-353-93

The scheduled completion date of Task 5 of the Action Plan in response to DOE Finding #93-WM-OOS-891-005-008 required EG&G/Environmental Restoration Management (ERM) to label all IDM (Investigative Derived Material) stored in gray drums pending characterization in the 90-Day area as hazardous waste. Per agreement at the Waste Managers meeting today, Joe Wienand concurred that for economic and regulatory reasons this issue needed to be raised at the previously scheduled July 23 meeting with the Agencies. Based on this decision, EG&G/ERM was given approval to extend the due date from today, July 15, 1993 to July 30, 1993.

EG&G has prepared the labels and they can be readily applied if that is the final decision. An exemption or modification to the Rocky Flats Plant Policy on gray drums would also need to be issued at that time.

If you need further information, please contact Marla Broussard of my staff at extension 8517
