# The Department of Energy at Rocky Flats Plant invites you to comment

Fiscal Year 1992  
Site-Specific Plan

The Fiscal Year 1992 Site-Specific Plan is an integral part of our environmental restoration and waste management activities at Rocky Flats. The FY 1992 Plan has been developed to describe the environmental and waste management activities that are underway at the plant - particularly those scheduled for the next fiscal year. The plan includes activities outlined in the U.S. Department of Energy's Five-Year Plan and activities to be carried out under Defense Programs funding.

Your comments on the Fiscal Year 1992 Site-Specific Plan are needed to help us shape the Draft FY 1993 plan early next year. A 60-day public comment period will begin on September 23, 1991 and end on November 23, 1991. Representatives from the Department of Energy and EG&G Rocky Flats will be present at a public information meeting on Wednesday, October 9, at the Arvada City Hall from 7pm to 9pm to provide information and answer questions on the federal budget process, the Department of Energy's five-year planning process and the prioritization of environmental and waste management projects. A public hearing to receive comments on the Fiscal Year 1992 Site-Specific Plan is scheduled for October 16, 1991.

**Public Information Meeting
