SUMMARY OF MEETINGS ON THE ANNUAL REPORT ON TREATABILITY STUDIES PROGRAM - EML-0594-92

Attached for transmittal to the Colorado Department of Health (CDH) and the Environmental Protection Agency (EPA) is a summary of the discussion that took place at the June 12, 1992 and August 6, 1992 meetings between the Department of Energy/Rocky Flats Office, CDH, EPA and EG&G Rocky Flats, Inc. The meetings were held to discuss the progress and status of the Treatability Studies Program. A draft letter for transmittal of this information to the regulatory agencies is also attached.

If you have any questions or need additional information please contact T. C. Greengard of Environmental Research & Technology at 273-6073.

MEETINGS ON THE ANNUAL REPORT ON THE TREATABILITY STUDIES PROGRAM

Items of Discussion:

- There will be quarterly meetings between EG&G Rocky Flats, DOE/RFO, EPA and CDH to discuss the status and progress of the sitewide treatability study program. The first meeting was held on August 6, 1992 and the next meeting is scheduled for November 12, 1992.
- Discussions with CDH were initiated concerning permitting for secondary wastes from off-site treatability studies. CDH's interest is in wastes that will be returned to RFP.
- Prior to beginning a treatability study, EPA/CDH will be informed when and where the testing will take place so they can arrange to visit the facility and observe the testing if they desire.

The following items were also discussed during the meeting and will be addressed in the next Annual Report on Treatability Studies (Spring 1993):

- A more detailed description of the Management Decision Factors will be included in the next Annual Report.
- The Treatment of Secondary Residues resulting from Treatability Studies will be a separate subject in the next Annual Report.
- The Responsiveness Summary to the EPA comments will be submitted to the agencies together with the Annual Report on Treatability Studies.
- An effort will be made to evaluate the effectiveness of the Pondcrete Project as part of a larger program. Solidification/Stabilization Project to be performed as part of the Sitewide Treatability Study program. The coordinated effort will be addressed in the next Annual Report.
- A list of advantages for the selected technologies over other similar technologies will be included in the next Annual Report.
- An explanation of how the Sitewide Treatability Studies Program functions in the overall Remedial Program at RFP was discussed during the meeting and will be addressed in more detail in the next Annual Report.
