At a meeting with the U.S. Environmental Protection Agency, Region VIII, (EPA) and Colorado Department of Health (CDH) on August 19, 1993, the U.S. Department of Energy/Rocky Flats Office (DOE/RFO) agreed to have EG&G Rocky Flats prepare a "strawman" methodology for the comparison of RFI/RI data with background data. The "strawman" will be based on Dr. Richard Gilbert's recommendations dated July 30, 1993, and EPA/CDH/DOE comments on Dr. Gilbert's recommendations.

A memorandum, dated August 16, 1993, (ERD:BKT:09379), requested that EG&G review and provide DOE/RFO comments on Dr. Gilbert's recommendations. As discussed with Mr. Dennis Smith of your staff on August 20, 1993, we are granting EG&G an additional week to perform this task. Thus, EG&G comments are now due to DOE/RFO on September 8, 1993.

We request that EG&G prepare and submit the "strawman" methodology to DOE/RFO by September 15, 1993. At this time, the "strawman" methodology will be transmitted to EPA and CDH for review. A meeting will be held during the week of September 20, 1993, to finalize the methodology.
