Control of Groundwater Well Installation

N M Hutchins, Deputy Associate General Manager  
Environmental Restoration Management  
EG&G Rocky Flats, Inc

There is currently incomplete control over the installation of new groundwater wells drilled at the Rocky Flats Plant. We request that a well installation program be developed by your Geosciences Division. Please prepare a proposal for a well control program that ensures that

- each newly proposed well is necessary and its purpose documented,
- plans exist for future use or abandonment of each new well,
- each new well is properly documented and permit applications are prepared, and
- environmental protection is considered during the construction or abandonment of each well

Please provide the proposed program, an estimate of the program cost, and a schedule for implementation of the program to the Department of Energy, Rocky Flats Office, Environmental Protection Division, by October 15, 1993

If there are any questions, please call me at extension 5915

E A Howard, Acting Director  
Environmental Protection Division
