Groundwater Well Control Program

N M Hutchins, Deputy Associate General Manager
Environmental Restoration Management
EG&G Rocky Flats, Inc

The Department of Energy, Rocky Flats Office, Environmental Protection Division (EPD) has reviewed the Draft Plant-Wide Well Control Program Proposal provided by your Geosciences Division (memorandum 93-RF-12764, October 15, 1993). The EPD approves the proposed program with the following revisions:

- Section 4.0, item 15: The well evaluation program shall evaluate the status of each well on a quarterly rather than an annual basis.
- Well installation request form: Proposed well numbers shall be designated by EG&G Geosciences Division for standardization and to avoid duplications.
- Section 4.0, Items 5 and 6: The use of "soil disturbance permit" is accepted as an interim well control method until the policies and procedures analysis discussed in Section 5.0 has been completed. At that time a new or revised procedure shall be implemented to ensure well control at the Rocky Flats Plant.

Please implement activities proposed in Section 6.0 of the draft proposal, and if there are any questions, please call me at extension 5915.

E. A. Howard, Acting Director
Environmental Protection Division
