SECTION 7 CONSULTATION; THREATENED AND ENDANGERED SPECIES

Rockwell International is a contractor to the U.S. Department of Energy and operates the Rocky Flats Plant near Denver, Colorado. The plantsite and buffer zone consist of approximately 6500 acres of Federally owned lands.

Several projects are planned at the plant that will involve surface disturbance. The 1980 Rocky Flats Plant final environmental impact statement included an evaluation by the U.S. Fish and Wildlife Service on threatened and endangered species at the site. No such species were found.

Rockwell is requesting an updated list of any threatened or endangered plant and animal species which may be present at the site. The site is located in Sections 1, 2, 3, 4, 9, 10, 11, 12, 13, 14 and 15; T2S R70W; and Sections 7 and 13; T2S R69W.

If you have any questions, please call Rick Lawton at (303) 966-7079 (FTS 320-7079).
