Dear Sir:

This is to request a file search for archeological, historical, and architectural features of the Rocky Flats area. This area lies mostly in northern Jefferson County with a small portion in Boulder County. The site location is:

Range: R. 70. W
 Township: T. 2. 5.
 Section(s): 1, 2, 3, 4, 9, 10, 11, 12, 13, 14, 15

Any information which you can provide will be greatly appreciated.

Sincerely,

M. F. Hickey

ERRATUM FOR LETTER OF AUGUST 18, 1978

Please correct the township site location given in my letter of August 18, 1978 to read T. 2. S.

The letter requested a file search for archeological, historical, and architectural features of the Rocky Flats area. The site location is:

Range: R. 70. W
 Township: T. 2. S
 Section(s): 1, 2, 3, 4, 9, 10, 11, 12, 13, 14, 15

Thank you very much for your help.

The Office of the State Archaeologist of Colorado is pleased to offer a new service in Computerized Site File Searches.

The actual personnel and computer costs will be charged to the user for this service. Due to the initial cost of accessing the program, the base charge for an individual computerized file search will be \$3.00. This will cover the expense of searching for data pertaining to a given legal location (county, township, range, with or without specific sections).

On a per search basis, it will be less costly to conduct several searches at one time on uninterrupted computer connect-time. Whenever possible, in this regard, we will endeavor to give you the most economical service as well as the most efficient.

As the OSAC staff is very busy, we will no longer be able to conduct site file searches without the use of the computer. You are, of course, welcome to come in personally to use the site files for file searches, if you prefer and are authorized.

Whenever possible, we ask that you submit your requests for site file searches, with legal descriptions, in writing so that we can efficiently serve you. Attached is a standard request form for your use and duplication. The turnaround time, from our receipt, will be 48 hours or less (weekends and holidays excepted).

Sincerely,

Bruce E. Rippeteau Ph.D.
State Archaeologist Colorado

A search of the archaeological site files maintained by the Office of the State Archaeologist was conducted for the following proposed areas: T2S, R70W, Sec. 1, 2, 3, 4, 9, 10, 11, 12, 13, 14, 15

No archaeological sites are listed in our records for these areas at the present time.

Additionally, there are no archaeological sites pending nomination to or on the National Register of Historic Places in the proposed project areas.

However, our files are by no means complete as the vast majority of Colorado has not been inventoried. There is always the possibility that there are archaeological resources within the proposed impact area that have not been identified.

(Prior to disturbance, the Federal agency is required to conduct a professional archaeological survey at the earliest stage of planning to locate and Identify the archaeological resources in the proposed project area, and to Evaluate these resources according to 36 CFR 800.10 to determine their Eligibility to the National Register of Historic Places. A Determination of Eligibility must be made in consultation with the State Historic Preservation Officer (SHPO). If the site is eligible, a Determination of Effect must also be made in consultation with the SHPO (800.4(b)). If the proposed action has an Adverse Effect (800.9), then a formal consultation process between the agency, the SHPO, and the Advisory Council on Historic Preservation (800.5) follows and results in a Memorandum of Agreement (800.5(g)) regarding the Avoidance (800.5(e)) or Mitigation (800.5(f)) of Adverse Effect. State agencies have similar obligations under CRS 1978, 24-80-401 to 410 and CRS 1973, 24-80.1-101-108. Consultation in regard to Archaeological Resources is properly conducted through this Office.)

Sincerely,

Bruce E. Rippebeau, Ph.D.
State Archaeologist Colorado
