Environmental Restoration Accelerated Cleanup Systems Management Team

Those on Attached List

This correspondence is intended to form a Systems Management Team to address environmental restoration accelerated cleanup. The team formation is a result of discussions at the March 28, 1994 Executive Council Meeting. Environmental Restoration at Rocky Flats is a major goal which to date has had both successes and failures. There are clearly opportunities for improvements and acceleration of the cleanup activities. However, it is critical that all affected Rocky Flats organizations be active participants to make any acceleration initiatives succeed.

I am proposing formation of the Environmental Restoration Accelerated Cleanup Systems Management Team (ERACSMT) with Frazer Lockhart, Environmental Restoration MSA Division Director, as the team leader. One standing team member is requested from each of the following organizations: Environment, Safety & Health; Operations & Waste Management; Project Management & Engineering; Site Support & Security; and Environmental Restoration. Assistant Managers from these organizations are requested to provide their nominations to me by April 11, 1994. Additional ad hoc members may also be requested in the future from these organizations as well as Communications & Economic Development, Office of Chief Counsel and others.

EG&G has already prepared an analysis of the potential for accelerated cleanup. This study is attached for your review and further clarification of the team's focus. I am committed to the success of the environmental restoration program, but also to the team-building opportunity that this effort represents. Please join with me in this team effort.

Questions may be addressed to me at extension 4538 or Frazer Lockhart at extension 7846.

Stiger

Jessie Roberson
Jessie Roberson
Acting Assistant Manager for
Environmental Restoration
