AVAILABLE RESOURCES - ACC-016-00

As you know, we brought Corporate resources on board to help with the Response to the Cure Notice. The assistance has been helpful to all of us.

Presently, we are downsizing the Response to the Cure Notice effort due to budget constraints. It has come to my attention that there are organizations within RMRS that can use these resources under budgets other than that for the cure notice. The resources can and will be made available to those operations that have budget available.

If you have a need to retain resources, please contact Ron Garner at 7047. All Ron needs is a budget number and he will take the necessary action to continue the support.
