SUBJECT RESOLUTION OF TASK PLAN #4 SUBTASK SDC-033-93 *SDC*

Task Plan #4 (RCRA/CERCLA Integration) includes Subtask #6 which requires a sample review of previously submitted ERM deliverables to identify and resolve potentially unaddressed waste issues. After having reviewed J R Fitzsimmons findings in this matter (JRF 031 93 July 14 1993) it is our opinion that no further action is required and recommend closure.

Given the increased cooperation between E&WM and ERM and the new integrated approach to IAG planning and execution much of which resulted from the other corrective actions completed under this Task Plan the subtask no longer serves the purpose for which it was originally proposed by this office.
