Dear Gentlemen:

Enclosed for your review are two copies of the "First Quarter RFCA Groundwater Monitoring Report for Calendar Year 2002, RFETS." There were no reportable results greater than Tier I Action Levels. There were 17 reportable results greater than Tier II Action Levels during this quarter's monitoring. Monthly sampling of three wells is planned as a result of this quarter's results. Monthly samples collected from drainage well 6486 for chromium and nickel analysis, as a result of the January 29, 2002, analyses indicate these metals continue to exceed the Tier II Action Levels in this well. Stainless steel was utilized in the construction of this well. An evaluation of the elevated nickel and chromium values will be considered. Please contact me at (303) 966-2282 or Scott R. Surovchak at (303) 966-3551 if you should have any questions or comments.

Sincerely,

Richard M. Legare
for Joseph A. Legare
Assistant Manager

for Environment and Stewardship
